

I-ESA 2016

The International Conference on Interoperability for Enterprise Systems and Applications

Enterprise Interoperability in the digitized and networked Factory of the Future

GUIMARÃES, Portugal

Pre-Conference:

29th March 2016 (Doctoral Symposium)

29th - 30st March 2016 (Workshops)

Conference: 31st March -1st April 2016

Call for Workshop Papers

Workshop:

Corporate Standardisation Management

Workshop Chair:

Kai Jakobs, RWTH Aachen University

You are cordially invited to participate to the Workshop "***Corporate Standardisation Management***" in the **International Conference on Interoperability for Enterprise Systems and Applications I-ESA 2016**. Since several years, I-ESA is the major event about Enterprise Interoperability and the official conference of Virtual Laboratory for Enterprise Interoperability (**INTEROP-VLab**) with the sponsorship of the International Federation for Information Processing (**IFIP**).

Accepted and presented papers will be published by **ISTE Publications UK**.

Objectives

The main objective of the workshop is to contribute to the identification of best-practices in organisational standardisation management. Corporate standardisation management also entails the selection of the most appropriate standards bodies. Thus, a second objective is to identify the criteria upon which this selection is based. This, in turn, will contribute to a more effective and efficient standardisation landscape.

Specifically, the workshop aims to solicit success stories in the field of corporate standardisation management. These examples, plus the general new insights gained, will highlight how standardisation management can contribute to enterprise interoperability

Topics

The workshop will be concerned with managerial issues of corporate standardisation as well as at standards management in the public sector. This includes aspects like organisational and reporting structures, education and training, cross-departmental information flows, etc.

Paper Submission

Papers abstracts must be in English, describes original work and must follow the **ISTE guidelines** for authors. Paper length should be 6 pages for a full paper and 4 pages for a short paper. The selection of the paper will be performed based on the abstract and not on the full paper.

Authors should submit their contributions by email to the Workshop Kai Jakobs (kai.jakobs@cs.rwth-aachen.de)

Key Dates

- January 15th , 2016, Submission of abstract
- January 30th ,2016, Notification of acceptance
- March 7th , 2016, "final draft" paper
- 29th, 30th March 2016, I-ESA 2016 Workshops
- April 15th , 2016: Camera-ready of the "final version" of the papers, including the summary of the discussion by workshop,

**I-ESA
2016**

29 March - 1 April 2016

INTEROPERABILITY FOR ENTERPRISES SYSTEMS
AND APPLICATIONS

18TH INTERNATIONAL CONFERENCE!

**Guimarães
Portugal**

I-ESA 2016

**The International Conference on Interoperability for Enterprise
Systems and Applications**

*Enterprise Interoperability in the digitized and networked Factory of
the Future*

GUIMARÃES, Portugal

Pre-Conference:

29th March 2016 (Doctoral Symposium)

29th - 30st March 2016 (Workshops)

Conference: 31st March -1st April 2016
